## Why do our employees enjoy working at Aroundhome?

In job interviews we are frequently asked, what makes Aroundhome so special and why our employees enjoy working with us. We have asked them and here are their answers:

## Career opportunities

Many of our employees have been able to grow during their time at Aroundhome.

There are plenty of long-time Aroundhomies who started as trainees and worked their way up to senior positions or even leadership roles. But that's not all! We also support the discovery of new passions, so switching to a completely different area is not uncommon. There are always new and exciting challenges here, along with the chance to take on responsibility and learn a lot in a short period of time.

## Benefits

Our benefits are diverse and offer something for everyone.

Our employees receive a training budget to develop according to their own goals. To make the world a little bit better, our ESG (Environmental, Social & Governance) team helps raise awareness about eco-friendly behavior. For instance, we have a partnership with JobRad and offer discounted BVG tickets for commuting to the office by bus or train.

To support our physical health, we offer affordable rates at the Urban Sports Club. Mental health is also an important focus at Aroundhome, which is why we provide counseling through the Fürstenberg Institute for our employees and their families.

If you're in the mood for a change of scenery, you can work up to 6 weeks in the EU. With home office options, flexible working models, and agile working methods, we help ensure a great work-life balance. Even better, we meet once a month for Company Day at the office to share lunch and dinner together. And in 2022, we hosted our very first Social Day, where we volunteered in social institutions. The idea was so well received that it will now be repeated annually.

## Culture

One of our core values is, not without reason: "Aroundhome feels like home, because we CARE about each other." – and our team spirit is truly palpable!

We work with passion, help each other with personal and professional growth, and motivate one another. Open communication, flat hierarchies, and trust are key for us. Everyone here has a voice that should and will be heard!

The family-like atmosphere and the genuine warmth have also led to many close friendships within the company.

We see setbacks as  
opportunities. They unite us, let us **#learn**.  
and bring us forward innovatively.

Aroundhome feels like home because we  
**#care** about each other.

What we do is tough, but  
**#challengeaccepted**.

We are **#honest** and transparent, even when  
it's uncomfortable.

We **#collaborate** as  
one team for happy customers and partners.

We **#celebrate** the progress we're making and  
stay focused.
